

Accelerating drug development using biomedical imaging biomarkers

October 21, 2022
Paris

October, 20: Virtual event

01:00 - 23:30 Virtual B2B matchmaking

October, 21: In person @ Cit  Internationale Universitaire de Paris

08:30 - 09:00 Welcome & Coffee

09:00 - 09:15 Welcome remarks by PASREL-imagerie & Medicen

Vincent LEBON- PASREL-imagerie Director /Head of Hospital Service CEA-SHFJ / BioMaps Director

Etienne LONCHAMP - Innovation project manager - Diagnostic sector
- Medicen

09:15 - 09:30 Opening

Franck MOUTHON - Theranexus founder and CEO / France Biotech President

09:30 - 10:15 Conference "Using PET imaging to enable neuroscience drug development"

Joel MERCIER - Director Medicinal and PET chemistry - UCB

10:15 - 11:00 Conference " PET microdosing with radiolabelled drugs "

Oliver LANGER- Associate Professor - Medical University of Vienna

11:00 - 11:30 Networking break

11:30 - 12:15 Round table - Isotope imaging for drug development: potential and challenges

Joel MERCIER - Director Medicinal and PET chemistry - UCB

Oliver LANGER- Associate Professor - Medical University of Vienna

Solène MARIE - Associate Professor - Paris-Saclay University

Georges DA VIOLANTE - Head of Biotransformation & Biodistribution, DMPK, Translational Medicine - Servier

Franck MOUTHON - Theranexus founder and CEO / France Biotech President

12:15 - 13:30 Lunch

13:30 - 14:30 Successful academic/industrial collaborations for drug development using imaging

"From the disease to an imaging biomarker for therapeutic monitoring"

Henri BENECH- General Manager & Cofounder - CERES-BRAIN

Therapeutics

Nicolas TOURNIER- Head of pharmacological Neuroimaging team - BioMaps/SHFJ

"Non-invasive multimodality imaging for immune cell tracking"

Erwan JOUANNOT- Head of global Bioimaging - Sanofi

Sébastien MERIAUX- Head of multimodal / functional MRI - CEA / Neurospin

"Relevance of imaging readouts in the clinical translation of gene therapy for Parkinson's disease"

Romina ARON BADIN - Deputy Director MIRCen

"Analysis of mRNA-Lipid nanoparticle distribution by in vivo imaging in two animal models"

Romain MARLIN - Project Manager - IDMIT

14:30 - 15:00 Pitch Biotech

Thomas JOUDINAUD - CEO & cofounder : **CERES-BRAIN Therapeutics**

Philippe JAIS - Chairman & CSO : **Eukarys**

Ludovic de ROCHEFORT - CEO : **Ventio**

Vincent PERLBARG - CSO & President : **Braintale**

Tanguy BOISSENOT - CEO : **Imescia**

Morgane LE GUEVELLO - Product Manager : **Wainvam-e**

15:00 - 18:00 On-site B2B Matchmaking
